

Premium Friction Ready and Loaded Brake Calipers

Superior Quality, Performance and Coverage:

You can rely on CARQUEST to supply the highest quality remanufactured brake calipers available on the market. CARQUEST Calipers are 100% computer tested to ensure consistent performance and reliability. They also undergo an exclusive phosphate rust preventive coating process to provide the longest caliper service life.

Market Demand

Brake caliper sales have seen a steady growth the past 5 years, especially in rear caliper and import applications. CARQUEST specializes in import and four-wheel brake caliper coverage.

CARQUEST Offers the Professional Technician Three Premium Choices of Brake Calipers

CARQUEST is dedicated to providing professional technicians with the flexibility of choosing from three high-quality brake caliper options. This winning combination of flexibility, quality, performance and value is just another example of how CARQUEST provides product solutions for your business.

Friction Ready Calipers

You choose which high-quality CARQUEST brake pads to include based on the customer's driving habits and braking demands.

Loaded Calipers

CARQUEST makes the choice easy by including only OE quality brake pads and all the hardware necessary to make them truly installation-ready calipers.

Severe-Duty Loaded Calipers

For those demanding heavy-duty applications like SUV's and fleets, where only the most high performance caliper and brake pads will do.

Premium Friction Ready and Loaded Brake Calipers

Did You Know?

Problem:

Brake calipers are highly susceptible to the damage created by contaminated brake fluid. Because they are located at a low point in the brake hydraulic system, rust, moisture and sediment collects in the piston bore damaging critical braking components.

Solution:

Brake fluid is hygroscopic (readily absorbs moisture from the air). Therefore, it is highly recommended that whenever a brake caliper is replaced, the entire system should be flushed and filled with fresh, high-quality CARQUEST Brake Fluid.

CARQUEST Total-System Solutions:

CARQUEST carries a complete line of brake system repair components and tools needed to assure customer satisfaction. Whether your needs include:

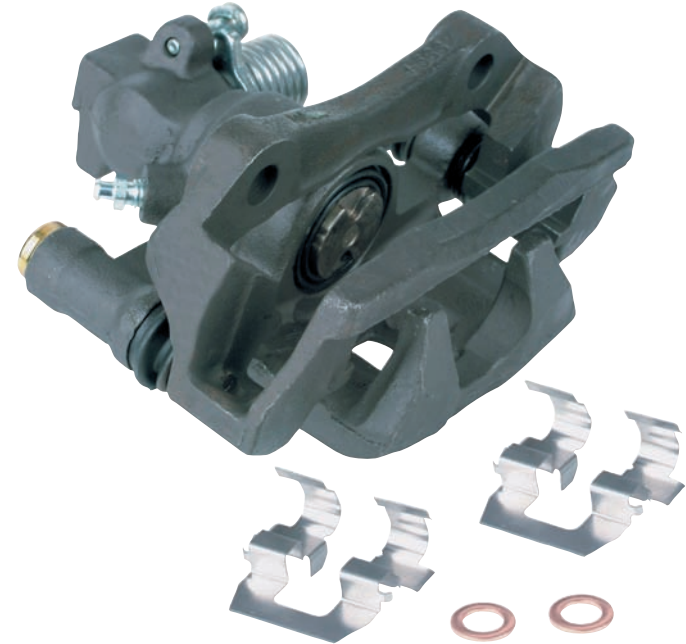

- calipers
- drums and rotors
- master cylinders
- disc pads and shoes
- wheel cylinders
- ABS components
- hoses and brake fluid
- hardware and cables

... CARQUEST has a total-system solution for every vehicle.

The CARQUEST Solution: Brake Hardware

No need to spend valuable time locating all of the brake hardware required to do a complete repair. Which ever CARQUEST Caliper you choose, you always get the hardware needed for quick and trouble-free installation. In addition and where required, CARQUEST also includes the hard to find OE caliper mounting brackets.

- Caliper Brackets
- Caliper Bracket Bolts and Caps
- New Bleeder Screws and Caps
- New Seals and Dust Boots
- Thrust Screws, Actuators, and Parking Brake Lever Springs
- Guide Pins and Pin Boots
- Anti-Rattle and Abutment Hardware
- New Copper Washers
