

# CARQUEST Gaskets

OE Quality Supplier:

**VICTOR REINZ®**

## Industry Leaders in Sealing Technology

CARQUEST gaskets are manufactured and supplied by Victor Reinz®, the largest supplier of sealing technology in the world. They have a long history of innovation coupled with forward thinking product design and technology.

From the world's first head gasket to non-stick coatings and today's multi-layered steel gaskets, Victor Reinz® produces gaskets for virtually every engine manufacturer worldwide.

## Superior Coverage

CARQUEST provides extensive coverage for domestic and import automobiles, trucks and sport utility vehicles, and also has an array of gaskets for performance, marine, heavy-duty and agricultural applications. Whether it's a head gasket, manifold installation kit, or a hard-to-find spark plug tube seal ... CARQUEST has you covered!

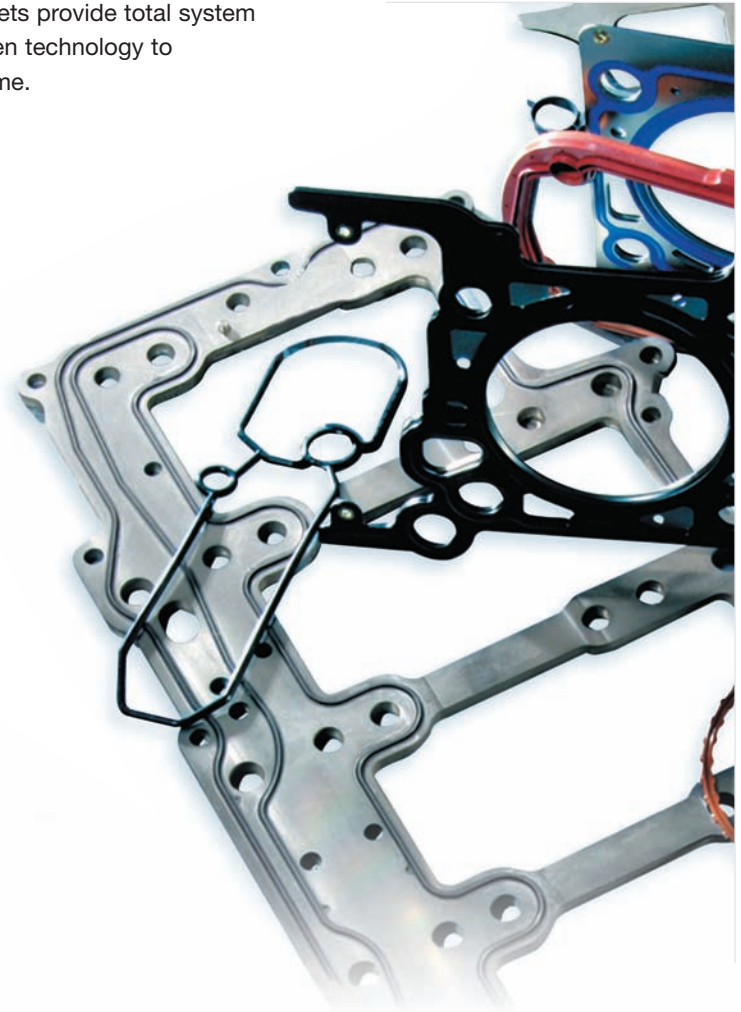

High performance engines create a harsher environment for gaskets and therefore require different materials to provide the optimum sealing capabilities. CARQUEST provides the same high quality product for passenger cars, SUVs and light trucks.

## CARQUEST Gaskets...Providing Quality Solutions for the Toughest Sealing Challenges

Regardless of the component, CARQUEST gaskets provide total system sealing solutions with quality products and proven technology to complete the service right the first time, every time.

### Manifold Installation Sets

CARQUEST offers problem-solving manifold installation sets that include all of the necessary gaskets to make those challenging intake manifold installations easier and installed right. Manifold installation gasket sets are even available for those difficult late model domestic applications requiring service.

# CARQUEST Gaskets

## Did You Know?

CARQUEST Multi-Layered Steel head gaskets do not require a mirror-like surface finish in order to seal. They feature an exclusive Intellicoat™ finish and will seal on any surface that composite head gaskets will seal on.

## CARQUEST Solutions

CARQUEST provides a full-line of OE quality gaskets and gasket kits for the most common to the most complex sealing applications. To assist with providing answers and fixes to some of the tougher challenges, CARQUEST offers Gasket Solutions™ Bulletins online at

[www.CARQUEST.com](http://www.CARQUEST.com).

These technical bulletins include:

- Import Bulletins
- General Motors Bulletins
- Ford Bulletins
- Chrysler Bulletins
- Miscellaneous Bulletins

## CARQUEST Training & Support

CARQUEST Technical Institute provides world-class training for professional technicians, with focus on up-to-date technology and real world solutions.

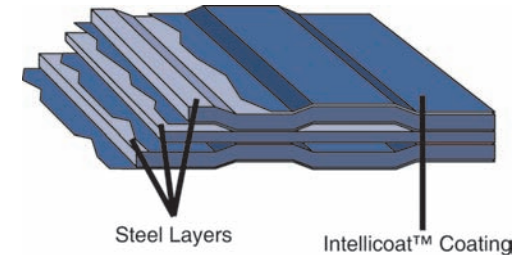

Contact your local CARQUEST Store or visit [CARQUEST.com/CTI](http://CARQUEST.com/CTI) for more details.

## Excellent Performance and Coverage for Every Application

CARQUEST uses a unique application engineering process that ensures the best gasket materials are used for specific gasket applications. So, whatever the usage, CARQUEST has the right gasket options to provide the best sealing performance on any application.

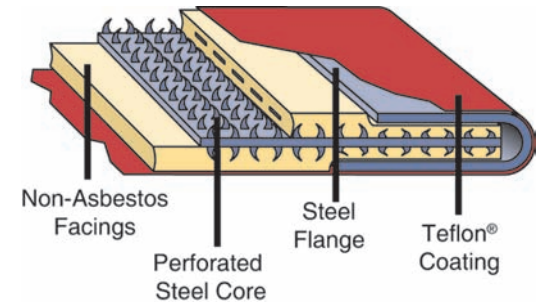

### Multi-Layered Steel

Multi-layered steel gaskets feature outer layers of beaded spring steel with an added polymer coating to aid sealing. These gaskets reduce cylinder and cam bore distortion and offer superior resistance to wear.

### VR-2000™

VR-2000 gaskets feature a sturdy Teflon®-coated facing material bonded to a perforated steel core to seal minor surface irregularities.

### Victo-Tech™

Victo-Tech gaskets feature a one-piece design and require no sealant for easy installation. These gaskets are comprised of molded silicone rubber materials, and meet or exceed OE specifications for performance and durability.
